## NOTES :

Very few wines in the wine world are off-dry, despite the common misuse of the term "dry wine". So, when we discuss quality wines, it really comes down to two wines that fall into this category: Loire chenin and German (NOT ALSACE OR AUSTRIA!!!) riesling. In this case, the quality of the fruit and the delicacy of the wine are distinctively Riesling and not Chenin Blanc. Also take note of the low alcohol.
